-----

The WEG frequency inverter CFW300 A 03P5 T4 is designed to operate with a power capacity of 1.5 kW. It supports a 3-phase electrical input ranging from 380 V to 480 V. This frequency ...

Nova Electric's CGD-Series inverters are intended for commercial and industrial applications wherever pure sinewave power is needed at 50 or 60 Hz.

These single phase inverter drives are suitable for a wide range of drive applications and come with a filter built-in. All Drives are highly reliable and excellent quality.

In this process, a three-phase inverter mainly changes the frequency of the AC signal, which in turn changes the speed and output power of the motor. At the same time, it also regulates the ...

Maximize your water pumping efficiency with the 1.5kw Solar Pump Inverter AC Three Phase 220V - GLP1K5L designed for optimum performance. Discover more!

Delta Electronics VFD-EL Series AC Inverter for 1.5kW (2HP) 230V 3 Ph motor in VxF or Sensorless Vector control to 7.5A. Converts fixed frequency single phase 230V input to ...

Our 1.5kW (2Hp) 3 phase 380 volt (three phase) input and 3 phase output devices are here. Our drive models in this section are used for 3-phase industrial motors.

These single phase inverter drives are suitable for a wide range of drive ...

The solar pump inverter features a compact structure and a rugged casing that is impact-resistant, flame-retardant, aging-resistant, and corrosion-resistant. The 1.5kW pump inverter is expertly ...

Two designs: book design and compact design developed for the simple, economic integration in numerous machine layouts, as well as the placement in the control cabinet or in the machine ...
