Only asynchronous type pumps can be used. This inverter uses "either" solar or AC input source to power load. Please remember to NEVER connect both power sources (solar and AC input) ...

Powerful 2.2kW Motor: Experience unwavering performance and consistent high-volume water delivery, powered by a robust 3hp motor. Durable and Reliable: Engineered with high-quality ...

This solar water pumping system is widely applied in farmland irrigation, ranch water supply, and desert management, offering exceptional reliability and adaptability for outdoor environments.

Saves time with easy installation.

Using Franklin quality components, our technical expertise in groundwater pumping, and innovative thinking based on global market inputs, we have developed a rugged, high-output ...

This solar water pumping system is widely applied in farmland irrigation, ...

MPP SolarSP SERIES (Single Phase, 3-Phase) - MPP Solar Inc Only asynchronous type pumps can be used. This inverter uses "either" solar or AC input source to power load. Please remember to NEVER connect both power sources (solar and AC input) ...

Experience efficient water pumping with the 2.2kw Solar Pump Inverter AC Three Phase 220V - GLP2K2L. Harness solar power for your needs today!

Buy 2kw solar water pumps with stainless steel construction and controller for deep wells at prices from \$148.2 to \$500. Available for purchase in quantities of 5 units or more, ideal for wholesale ...

Our Pro Series D systems use hearty 3-Phase Motors and 3.9? Pump Ends. Our controllers are the best in the world and allow customization and optimization based on sun and season.
