What is a battery cabinet?

A battery cabinet houses and protects the batteries that supply stored energy to a UPS system. It ensures that backup power is readily available whenever primary power is interrupted. Battery cabinets can be installed indoors or outdoors and are designed to provide secure, organized, and scalable energy storage for continuous power delivery.

What types of battery cabinets are available?

Tariff Relief. Up to 10% Protection. Battery cabinets from diverse manufacturers APC, Toshiba, CC Power, Eaton, Powerware, Mitsubishi, Narada, and Salicru. We stock new and used battery cabinets in support of our energy storage packages, ups backup systems and rental UPS. Speak to a power expert to match up with your specific requirements.

What size battery cabinet does Arimon offer?

Arimon offers several standard monobloc or top terminal battery cabinet sizes for 10 kVA to 125 kVA UPS systems accommodating monobloc batteries from 100 WPC (64 batteries) to 540 WPC (40 batteries) or can work with you on even larger custom battery cabinet solutions if needed.

Who makes battery cabinets?

Global Power Supply offers battery cabinets from industry-leading manufacturers such as Toshiba and Narada, available in multiple configurations to match your specific operational needs. Because every facility's power requirements are unique, we can help tailor the number of cabinets, capacity, and layout to meet your space and runtime objectives.

Our team can assist you in identifying the correct cabinet model, battery type, and configuration to ensure reliable integration with your UPS system and long-term performance for your facility.

When it comes to Lithium-Ion Battery Safety Cabinets, you can count on Grainger. Supplies and solutions for every industry, plus easy ordering, fast delivery and 24/7 customer support.

The BC-1 EBPS Series Battery Cabinet is designed to securely house up to 40 Amp Hour batteries, providing robust power storage for fire alarm panel accessories.
