Israel's solar-plus-storage tender wraps up with final price of \$0./ kWh. The federal government designated 168 MW of ability via the tender and also chosen three developers for 11 projects, ...

With bids totaling a prospective construction capacity ranging from 1,300 to 1,900 megawatt-hours (MWh), Enlight is poised to reinforce its leading position in Israel's burgeoning ...

This installation case fully verifies the applicability of GSL Energy's high-voltage energy storage system in the Middle East's ...

On September 8, 2024, the GSL ENERGY 60kwh wall-mounted battery home energy storage system was successfully deployed in Guatemala, bringing new changes to the local household ...

Energy storage system: Deye 50kW/60kWh high-voltage energy storage system, the core of which is a lithium iron phosphate battery pack. The system has a strong capacity expansion ...

With bids totaling a prospective construction capacity ranging from 1,300 to 1,900 megawatt-hours (MWh), Enlight is poised to reinforce ...

Israeli renewable energy developer Enlight has won grid connection rights for 300 MW of battery storage capacity in a national tender, enabling the construction of systems that ...

The primary goal of these new storage facilities is to capture renewable energy generated in southern Israel in daytime and deliver it to consumption centers in central Israel ...

With built-in fire and gas safety detection and advanced power management, it ensures safe and reliable energy performance across industrial applications. Integrated design with high power ...

To spotlight real-world impact, here are six standout cases in Israel's C& I energy storage landscape, showcasing diverse applications from utility-scale hybrids to BTM solutions:
