In this guide, we'll explore how to harness solar-powered water pumps, filtration, and heating to ensure clean, drinkable water year-round --even in remote areas.

HydroArk runs entirely off-grid using built-in solar panels and battery storage. Optionally, it can be powered by a generator or connected to shore power if available.

The Intech Energy Container is a fully autonomous power system developed by Intech to provide electricity in off-grid locations. Each container is equipped with a photovoltaic array, a battery ...

Hundreds of these systems are currently in operation, treating water with TDS of up to 10,000 PPM and producing flow rates of up to 70 gallons per ...

With a carefully sized solar array, intelligent water systems, and a container shell customized for energy performance, even the most remote sites can offer a comfortable -- and sustainable -- ...

Our mission is make communities more resilient in the light of climate change, by providing affordable access to clean water and renewable energy. We've been operating since 2016, ...

Delivering 10,000W of rated power output, this rugged pure sine wave hybrid inverter is capable of pairing with either GEL or LI batteries. Dual MPPTs provide 99% efficiency. Provides 120V and ...

We are offering mini renewable power stations in a Off-Grid shipping Container ready to be deployed worldwide. These include solar PV panels and mountings.

Chunke off-grid solar desalination plant is a plug & play, with containerized option that works off-grid using only solar energy to produce clean water from seawater, brackish water, borehole ...

Hundreds of these systems are currently in operation, treating water with TDS of up to 10,000 PPM and producing flow rates of up to 70 gallons per minute. Designed for maximum water ...
