What is the impulse endeavor inverter?

The Impulse Endeavor Inverter gives our Flex-Force Power System the capacity to charge everything from mobile phones and laptops to portable lights and fans. It's a portable inverter that generates power where you need it from any 60V battery in the Flex-Force lineup. Charges the electronics that keep you going, wherever you need power.

Can a single phase inverter output 240V 60Hz?

These single phase inverters can be programmed to output 240V 60Hz for North American applications. Couple with an Autotransformer to do neutral forming for 120/240V split phase applications. We can also stack these inverters in three phase configurations to do 230V/400V WYE (50Hz or 60Hz).
