-----

Energy Vault, a gravity-based power storage provider, has begun building on its first commercial-scale project. The 100MWh battery pack is being constructed near a wind generator in ...

The Asuncion Energy Storage Project bidding process aims to fix this glaring inefficiency through a 150MW/600MWh battery storage system, potentially becoming South America's largest ...

In this study, a new emerging energy storage system named gravity energy storage (GES) is integrated into large-scale renewable energy plant with an aim to investigate its optimal design ...

When Paraguay's National Power Company announced the winning bidder for its landmark Asuncion Energy Storage Project last week, industry analysts weren't just watching ...

Asuncion faces unique energy challenges with its tropical climate and growing industrial sector. The city's peak electricity demand reached 1,850 MW in 2023, yet renewable integration ...

Combining compressed air energy storage (CAES) with solar-thermal reservoirs, this \$120 million project might just redefine urban energy resilience in South America.

Let's face it--energy storage isn't exactly dinner table conversation. But when Asuncion's shared storage model slashes electricity bills by 40% for local businesses \*cue jaw ...

This landmark initiative will establish solar PV and energy storage infrastructure across 187 inhabited islands, positioning investors at the forefront of the region's sustainable energy ...

The Government of Uganda has authorised engineering, procurement, and construction (EPC) contractor Energy America to build a 100MWp solar PV plant, integrated with a 250MWh ...

On June 26, 2020, Delaware-based Kinetic Power, LLC submitted an application to the Federal Energy Regulatory Commission (FERC) for a preliminary permit for a proposed hydroelectric ...
