-----

A total of 36 battery units, each with a capacity of 3.44 MW, will power a groundbreaking energy-storage project at Athens airport, totaling just over 123 MW. The ...

Imagine storing summer solar energy for winter heating - that's the holy grail Athens" engineers are chasing. They've already piloted a vanadium redox flow battery subsystem that retains ...

The company has been actively involved in the development of renewable energy projects in the solar energy, wind energy, and energy storage sectors. AIA's renewable energy projects have ...

BESS offers grid operators on-demand power that can respond quickly when needed. In addition, BESS makes it possible to save extra solar power generated during the day and release it ...

As industries from data centers to desalination plants adopt this tech, one thing's clear--the Athens Power Storage System isn't just storing energy; it's powering a smarter, ...

Athens International Airport (AIA) Eleftherios Venizelos completed its comprehensive energy makeover program. It is now operating a photovoltaic facility of 51.5 MW and a battery ...

BESS offers grid operators on-demand power that can respond quickly when needed. In addition, BESS makes it possible to save extra solar power ...

Global solar module manufacturer JinkoSolar Holding Co., Ltd. announced it has entered into a Head of Terms with KIEFER to supply large scale battery storage to Athens ...

Jinko ESS delivers energy storage at Athens Airport, marking a milestone in a major PV-ESS self-consumption project that supports net-zero 2025 goal.

A total of 36 battery units, each with a capacity of 3.44 MW, will power a groundbreaking energy-storage project at Athens airport, ...
