Thanks to the latest version of our container-based e-SPRINGBOX solar generator, you can deploy and start up a clean and silent solar power plant without any structural engineering or ...

Under the agreement, an area covering 106,000m²; including roofs of rail depots, car parks and office buildings will be used to capture the solar energy for Bangkok's mass transit rail system.

As per the agreement, CKP will design, install, and construct the solar system, as well as oversee post-installation maintenance ...

The Red Line mass transit rail system, powered by Hitachi Energy, runs from north to south and east to west across Greater Bangkok, connecting suburbs and satellite cities with ...

The BoxPower MiniBox is a pre-engineered solar power station, prefabricated inside a 4? x 8? palletized enclosure. All energy systems are ...

The BoxPower MiniBox is a pre-engineered solar power station, prefabricated inside a 4? x 8? palletized enclosure. All energy systems are equipped with a solar array, batteries, inverters, ...

This article explores the innovative integration of solar power into Bangkok's Mass Rapid Transit (MRT) system, marking a significant step towards sustainable urban ...

We are proud to pioneer new uses for solar energy in Thailand, and our partnership with Bangkok Expressway and Metro will make an important contribution to ...

Our pioneering and environmentally friendly solar systems: Folded solar panels in a container frame with corresponding standard dimensions, easy to unfold thanks to a sophisticated rail ...

We are proud to pioneer new uses for solar energy in Thailand, and our partnership with Bangkok Expressway and Metro will ...
