"This is very good news. Meanwhile, there is a growing number of difficulties in terms of affordability and system stability," said Stefan Kapferer, CEO of 50Hertz, at the ...

Whether you're involved in designing, implementing, or researching in the field of large-scale renewables grid integration, this event is tailored to your needs.

Over four days, the 24th Wind & Solar Integration Workshop, to be held in Berlin from 7-10 October 2025, will feature 200+ international speakers covering grid integration of ...

Over four days, the 24th Wind & Solar Integration Workshop, to be held in Berlin from 7-10 October 2025, will feature 200+ international ...

The Call for Papers for the 24th Wind & Solar Integration Workshop has been extended - giving you a last chance to join us as a speaker this October in #Berlin. ? This year's focus...

The 24th Wind & Solar Integration Workshop is coming to Berlin from 7-10 October 2025! This leading global event will feature 150+ international speakers and 350+ participants ...

The Wind & Solar Integration Workshop will feature 200+ experts in 40+ sessions on grid integration of renewable energy, grid forming, hybrid power plants, hydrogen, and ...

The workshop provides a dynamic platform for sharing cutting-edge research, discussing project experiences, and fostering innovation in grid integration. Key topics include grid-forming ...

This workshop is designed to shape the future of renewable energy integration by addressing challenges at scale and highlighting advancements across the energy sector.

Renewable Energy Grid Integration Week E-MOBILITY | HYDROGEN | WIND & SOLAR | STORAGE  
organized by energynautics 06-10 OCT 25
