The smooth construction of this project demonstrates POWERCHINA's technical expertise and fulfillment capability in international water conservancy and hydropower. It also ...

The Ivirizu Hydroelectric Power Project in Bolivia, being built by POWERCHINA, recently achieved its water storage milestone, marking a new phase in the project's development.

"The Chichas Solar Plant will not only strengthen Bolivia's energy security, but will also generate a direct positive impact on local ...

Bolivia's ambitious plan to triple its renewable energy capacity by 2026--adding 902 MW of wind and solar--sounds like a green energy dream come true. But here's the ...

The energy transition of Bolivia presents unique challenges due to its heavy reliance on fossil fuels and a lack of a comprehensive, long-term strategy. This study develops ...

By investing in the development and deployment of energy storage technologies, Bolivia can not only meet its ambitious renewable ...

Most notably, the 7,550MW Manseriche project being developed in Peru, the 3,600MW Zamora G8 project being announced in Ecuador, and the 2,400MW Ituango project under construction ...

This article explores how cutting-edge energy storage solutions are transforming the country's power infrastructure while creating export opportunities in Latin America's growing clean ...

We develop battery modules, racks and energy storage systems designed to power industrial applications across challenging sectors, including construction, maritime, defence, and grid ...

This article dives into the country's largest energy storage project, analyzing its technical specs, environmental impact, and role in Bolivia's clean energy transition.
