-----

Why do we need energy storage solutions in Bulgaria?

Establish a reliable energy system with greater share of intermittent generation. In the context of Bulgaria's energy landscape, energy storage solutions present a diverse array of benefits to various stakeholders stemming from its unique ability to time-shift energy and rapidly respond when called upon. The applic

Can battery-based energy storage improve peaking capacity in Bulgaria?

Energy storage can also offer greater flexibility and efficiency in managing the grid. Furthermore, and although hydropower storage already makes up a significant source of peaking capacity in Bulgaria, battery-based energy storage can address peaking needs during times of droughts, meet requirements for more distributed peaking po

Where is a Bess power plant located in Bulgaria?

A BESS facility of 124.1 MW in operating power was inaugurated in Lovechin Bulgaria. Located next to a photovoltaic park within Balkan Industrial Park, it is part of the country's first closed licensed power distribution system.

Where does Bulgaria get its electricity from?

Electricity came from thermal power stations, and only 7 percent from solar and wind. Historically, Bulgaria has also been a major producer and exporter of electricity for the surrounding region with a total of 10 interconnectors spread across Romania, Serbia, North Macedonia, Greece, and Turkey. The country thus has a critical role in driving a more s

Transformation of AES Galabovo into a large-scale energy storage facility using proven technology implemented in concentrated solar power plants (CSP) using molten salts

IPS manufactures advanced power electronics, such as inverters, power conversion systems and battery chargers, and provides industrial power supply and microgrids solutions ...

Bulgaria's largest commissioned system to date is a 25MW/55MWh installation by Renalfa (June 2024), followed by an 18.7MWh project from China-based Sermatec. In ...

Kehua supplied the 1500Vdc PCS and MV transformer integrated solution. This solution can be applied in various applications, ...

The Bulgarian city of Lovech, northeast of Sofia, hosts the strongest battery energy storage system (BESS) in the Balkans. The ...

IPS manufactures advanced power electronics, such as inverters, power conversion systems and battery chargers, and provides ...

The Bulgarian city of Lovech, northeast of Sofia, hosts the strongest battery energy storage system (BESS) in the Balkans. The Ministry of Energy even said the new ...

In 2024, GSL ENERGY successfully installed a 7.45MWh industrial-grade BESS energy storage battery system in Bulgaria, integrated with solar photovoltaic power generation, ...

International Power Supply (IPS) has officially opened its new battery energy storage system (BESS) manufacturing facility near Sofia, ...

In 2024, GSL ENERGY successfully installed a 7.45MWh industrial-grade BESS energy storage battery system in Bulgaria, ...
