The purpose of this guide is to provide New York State farmers and landowners with information on planning and installing solar-powered water pumping systems.

Tools Needed For Installing Solar Water Pumps
Setting Up The Solar Panels
Wiring Your Solar Pump
Mounting The Solar Water Pump
FAQs
After connecting the solar water pump to the controller, connect a long pipe to the pump. Then you may connect that pipe to a storage tank or use it to pump water directly to wherever you need it. The way you'll mount your solar-powered water pump largely depends on the type of pump. If it's a submersible pump, you'll have to place it in a well in ...
