What is Convalt doing in Chad?

Convalt Energy is developing a 120 MW solar project in Chad, specifically for the capital region of N'Djamena. Convalt is also developing rural electrification projects across Sierra Leone for an aggregate of 60 MW. Convalt Energy is an innovative renewable energy company dedicated to delivering clean energy worldwide.

What is a solar distributor?

Solar distributors assist solar manufacturing companies by storing, handling and shipping their solar products to their buyers. On the other hand, they help solar contractor companies in outsourcing high-quality solar products.

What is the role of distributors in the solar industry?

Typically, in distribution, a company is handling the sourcing, stocking and logistics but nowadays they are also helping manufacturers in product designing and solving other business conflicts. Aside from other industries, distributors also play a vital role in the solar industry.

With a renewed focus on U.S. power generation, transmission, and solar manufacturing, Convalt is advancing toward becoming a leading global independent renewable energy company.
