What is a hybrid inverter?

Hybrid inverters are essentially two inverters in one; they combine a solar inverter and a battery inverter into one simple unit. These advanced inverters use solar energy to power your home, charge a battery or send excess energy into the electricity grid. Most hybrid inverters can also provide emergency backup power during a blackout.

How to choose a hybrid inverter?

Choosing the right hybrid inverter depends on several factors of which the main is the requirements of the power supply which can be calculated by counting the consumption of the appliances: Power requirements: Consider your home's energy needs and the size of your solar system.
