The increase in energy consumption, driven by rapid electrification, data consumption and AI, coupled with Australia's supportive regulatory policies and record low renewable energy ...

Published annually in collaboration with the Australian Energy Market Operator (AEMO), GenCost offers accurate, policy and technology ...

The paper reviews energy storage technologies and their applicability to the Australian National Electricity Market (NEM). The increasing dynamic variability between ...

Wood Mackenzie data shows that renewables capacity in Australia is now equivalent to over 80% of the peak grid load, while ...

This study conducts a systematic review of the technical and operational challenges associated with transitioning island energy systems to fully renewable generation, following the ...

The Australian Energy Market Operator (AEMO) has detailed in its regular quarterly reporting that grid-scale battery energy storage systems (BESS) output achieved new ...

On this topic, the literature review indicates that the implementation of storage is a prerequisite for attaining renewable penetration rates of over 50 % due to the amplified ...

This study conducts a systematic review of the technical and operational challenges associated with transitioning island energy ...

The Australian Energy Market Operator (AEMO) has detailed in its regular quarterly reporting that grid-scale battery energy storage ...

Compressed air can be stored for a long time in shallow, medium and deep storage, and even under water. It is likely to be ...
