Whether on offshore platforms, for fracking trucks, mobile drilling rigs, or FPSO units, our container solutions are designed for optimal use under demanding conditions.

Onboard DC Grid(TM) is a modular power system platform that enables seamless, flexible integration of energy sources and loads. Highly customizable, it serves a wide range of vessel ...

GE Vernova has introduced the RESTORE DC Block, a modular BESS solution designed to enhance safety, efficiency, and long-term performance for large-scale utility projects.

This DC Container is a liquid-cooled energy storage solution that integrates lithium iron phosphate batteries (314 Ah), intelligent BMS, and PCS in a standard outdoor platform.

DC Container (BESS) is designed with long-life battery cells and robust electrical components, ensuring safe and stable operation even in harsh ...

Exencell offers cutting-edge 20ft container BESS solutions with lithium-ion technology. Our container battery energy storage systems, including DC-coupled options, ensure efficient and ...

GE Vernova launches RESTORE DC Block, a modular BESS solution offering enhanced safety, efficiency, and long-term performance for utility ...

The present work reviews energy storage systems with a potential for offshore environments and discusses the opportunities for their deployment. The capabilities of the ...

GE Vernova launches RESTORE DC Block, a modular BESS solution offering enhanced safety, efficiency, and long-term performance for utility-scale projects.

DC Container (BESS) is designed with long-life battery cells and robust electrical components, ensuring safe and stable operation even in harsh environments. It features an advanced liquid ...
