How many EV charging stations are there in Dubai?

EV charging infrastructure in the UAE electric vehicle market is booming with an estimated 800 stations by 2023, a 60% rise in three years. This is fueled by government support in boosting electric vehicle uptake, led by Dubai's deployment of over 300 stations through DEWA.

How many EVs are there in Dubai?

According to the Dubai Water and Electricity Authority (DEWA), the number of EVs in Dubai is estimated to be approximately 7,331 in 2023 and is expected to reach 12,852 by 2025. This supports Dubai's Green Mobility Strategy 2030, mandating 30% of public sector vehicles and 10% of all vehicle sales to be electric and hybrid by 2030.

How long does it take to charge an EV in Dubai?

Normal AC chargers are everywhere across the UAE electric vehicle market, while a few strategically placed DC fast chargers allow for quick top-ups. In Dubai alone, there are over dozen Green Charger stations that have fast-charging capabilities, which can fully charge an EV within just half an hour.

What is Dubai doing about EV charging?

Dubai has introduced a Clean Energy Strategy 2050 and a Green Mobility Strategy 2030 including an EV Green Charger initiative to expand the EV charging network and encourage the use of pure electric and hybrid cars across Dubai.
