At Solar Generation, we only use tested, trusted brands and will most likely use one of the below products when building your free solar quote. Whether you need solar inverters for your home or business, you can trust Solar Generation to deliver reliable solutions.

Which inverters are most commonly installed in Irish homes?

We've put together a side-by-side comparison of the inverters commonly installed in Irish homes. These include both hybrid and string inverters from trusted brands like Huawei, Solis, Duracell, SolarEdge, SMA, Fronius and Enphase.

What is a solar PV inverter?

Solar PV inverters are essential for any photovoltaic (PV) system that needs to utilise AC power. Their primary function is to convert the DC power generated by solar panels into usable AC power, which can then supply the electrical loads in a property. There are many different types of solar inverters available in the market today.

Do Huawei inverters work in Ireland?

Huawei inverters are designed to operate efficiently across a range of weather conditions, including Ireland's variable climate. The strong Huawei design ensures consistent performance, contributing to the overall effectiveness of your solar energy system. 5. What are the advantages of Huawei inverters over other brands?
