Is totalenergies developing a second battery storage project in Belgium?

Download the Press Release (PDF) Antwerp, April 3, 2024 - On the occasion of Belgian Energy Minister Tinne Van der Straeten's visit to TotalEnergies' Antwerp refinery battery storage project, the Company announced the development in Belgium of a second similar project. The new project will be developed on the site of TotalEnergies' depot in Feluy.

What is the power rating of the Antwerp battery project?

The Antwerp battery project has a power rating of 25 MW and capacity of 75 MWh. The installation will be operational by the end of 2024. The project uses 40 Intensium Max High Energy lithium-ion containers supplied by Saft. TotalEnergies has a portfolio of 450,000 BtC and 100,000 BtB electricity sites in Belgium.

Where is totalenergies launching a battery farm project in 2023?

Paris, May 15, 2023 - TotalEnergies has launched at its Antwerp refinery (Belgium), a battery farm project for energy storage with a power rating of 25 MW and capacity of 75 MWh, equivalent to the daily consumption of close to 10,000 households. A first flagship energy storage project in Belgium

Why is totalenergies developing a battery energy storage system?

This project, located on the Antwerp refinery site, will benefit from the available land and the site's grid connection. It is a new step in TotalEnergies' development of battery energy storage systems (BESS) which strengthens the Company's presence across the entire electricity value chain in Belgium (production, storage, supply).

TotalEnergies has launched a battery farm project for energy storage at its Antwerp refinery in Belgium, with a power rating of 25 MW and capacity of 75 MWh, equivalent ...

Paris, May 15, 2023 - TotalEnergies has launched at its Antwerp refinery (Belgium), a battery farm project for energy storage with a power rating of 25 MW and capacity of 75 MWh, equivalent to ...

Strategic Positioning of Key Players GIGA Storage Belgium: GIGA Storage is constructing the Green Turtle battery park in Dilsen-Stokkem, a 700 MW / 2,800 MWh installation. Strategically ...

Discover how industrial batteries and smart EMS systems drive energy transition in Belgium: cut costs, earn flexibility revenues, and meet EU targets.
