---

As a key component of Guyana's landmark GtE initiative, the BESS will enhance the project's efficiency and reliability; helping to stabilise the national grid, reduce carbon ...

Designed to respond instantaneously, BESS provides "critical" backup power to protect the integrity of the electrical grid and maintain operational stability in the event of ...

As a key component of Guyana's landmark Gas-to-Energy (GtE) initiative, the BESS will enhance the project's efficiency and reliability; helping to stabilize the national grid, ...

Guyana has unveiled a new 0.65 MW grid-forming solar project, paired with a 1,500 kWh battery energy storage system (BESS) and a 13.8 kV transmission line.

Guyana's landmark Gas-to-Energy project reached a critical milestone with the arrival of a 30-MW backup battery energy storage system (BESS) at Georgetown's John ...

June 23, 2022: Guyana is to develop eight utility-scale solar and battery storage projects in the South American country with investment financing worth around \$83 million, the ...

As a key component of Guyana's landmark Gas-to-Energy (GtE) initiative, the BESS will enhance the project's efficiency and ...

Spanning 13 acres, the advanced facility combines solar generation and energy storage to stabilize power supply on the Essequibo Coast. It captures excess solar energy ...

The project is a central component of Guyana's push to lower energy costs and emissions by replacing heavy fuel oil (HFO) with natural gas for electricity generation.

Guyana Power and Light (GPL) is advancing clean energy with new solar PV projects and battery storage, set to benefit 70,000 people and reduce costs.
