Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.

Discover our range of innovative solar panels on shipping container products engineered to meet your renewable energy needs with maximum efficiency and reliability.

Thanks to foldable solar arrays, the container is rapidly deployable -- operating within hours to support power needs across diverse scenarios. Built for longevity, the SolaraBox solar ...

SolaraBox introduces groundbreaking Mobile Solar Containers that bring sustainable energy solutions to any location worldwide. These innovative portable power plants deliver 400-670 ...

Solar portable power stations are compact and eco-friendly. They help reduce your carbon footprint while ...

Solarfold(TM) features a patented dual-rail guiding mechanism, 40% higher energy density, automated deployment in under 6 hours, and superior weather resistance. Unlike traditional ...

This is the product of combining collapsible solar panels with a reinforced shipping container to provide a mobile solar power system for off-grid or remote locations.

Ideal for temporary power, remote locations, or emergency backup, these all-in-one solutions combine high-efficiency solar generation with integrated storage for rapid deployment in ...

Solar portable power stations are compact and eco-friendly. They help reduce your carbon footprint while keeping your devices charged. From smartphones to small appliances, ...

High-efficiency Mobile Solar PV Container with foldable solar panels, advanced lithium battery storage (100-500kWh) and smart energy management. Ideal for remote areas, emergency ...
