Are shipping container solar panels durable?

Durability and Low Maintenance: Solar panels are designed to be durable and require minimal maintenance. Once installed, they can operate efficiently for decades with minimal upkeep. Fleet Containers ensures the highest quality in our shipping container solar panel installations.

What are the advantages of a container roof solar system?

1. **Integrated Solar Array** High-efficiency solar panels installed on the container roof or fold-out frames.
2. **Battery Energy Storage** Lithium-ion or deep-cycle batteries store energy for use day or night.
3. **Inverter & Control Systems** Converts solar power to usable electricity with smart monitoring.
4. **Weatherproof & Secure**

Are solar containers safe?

Yes-- all solar containers are built from weatherproof, lockable shipping containers. Your gear is safe from the elements and secure from unauthorised access. Can the system be expanded later on?
