---

With strong ties and a focus on growth, Nastech Solar and Huawei are poised to drive the expansion of solar energy in the Middle ...

Phanes Group, an international end-to-end solar provider headquartered in Dubai UAE, has partnered with Huawei to deliver the UAE's first medium voltage (MV) rooftop ...

This is a key project under Dubai's Shams net-metering scheme and serves as a blueprint for the roll-out of distributed industrial solar PV for the region.

Covering 100 km of grid infrastructure, it is the world's first independent microgrid project to be fully powered by solar and energy storage without connection to any power network.

Dubai, UAE: Phanes Group, an international end-to-end solar provider headquartered in Dubai UAE, has partnered with Huawei to deliver the UAE's first medium ...

Huawei has developed the world's largest microgrid power station which delivers 1 billion kWh power supply per year. The new solution will play a significant role in Saudi ...

Speakers collectively noted that the Middle East & Central Asia region is entering an era of rapid renewable adoption--one in which grid-forming ESS technologies will be ...

Saudi Arabia's Red Sea Project will feature the world's largest photovoltaic-energy storage microgrid with a 400MW solar PV system ...

Saudi Arabia's Red Sea Project will feature the world's largest photovoltaic-energy storage microgrid with a 400MW solar PV system and 1.3GWh storage capacity.

It provides smart PV solutions for residential, commercial, industrial, utility scale, energy storage systems, and microgrids. It builds a product ecosystem centered on solar inverters, charge ...
