Another utility-scale 2 MW project was completed in North Macedonia. With 550W EGE Atlas series double glass bifacial modules project will reach high power output even under bad ...

The bifacial solar farm, equipped with Huawei Technology inverters, achieves a high system performance ratio of over 90%, ...

Malaysia's VCI Global Limited has fueled its expansion with the signing of a term sheet to acquire a 1.14 megawatt solar farm in Novo Selo, North Macedonia for around \$1.26m.

EcoSync has successfully launched a 20MW solar project in Macedonia using 550W bifacial modules, paving the way for clean and ...

The first photovoltaic power plant in North Macedonia that simultaneously produces electricity from the sun and the reflection of light was installed by EVN Macedonia. It is made ...

A bifacial solar cell (BSC) is a photovoltaic solar cell that can produce electrical energy from both front and rear side. In contrast, monofacial solar cells produce electrical energy only when ...

The bifacial solar farm, equipped with Huawei Technology inverters, achieves a high system performance ratio of over 90%, meaning it operates at more than 90% of its ...

North Macedonia opted to establish public-private partnerships through its Directorate for Technological-Industrial Development Zones (TIDZ or, in Macedonian, TIRZ) for solar power ...

The bifacial photovoltaic power plant of EVN Macedonia in Negotino is composed of 4416 panels with a power of 335 W, respectively installed power of 1479 kW (1.48 MW) and has a capacity ...

EcoSync has successfully launched a 20MW solar project in Macedonia using 550W bifacial modules, paving the way for clean and sustainable energy solutions in the region.
