supplier, we are well-known for our world-class Power Generation Equipment and ...

Our analysts track relevant industries related to the Iceland Captive Power Generation Market, allowing our clients with actionable intelligence and reliable forecasts tailored to emerging ...

Landsvirkjun is the National Power Company of Iceland. We produce electricity from renewable energy sources; hydropower, geothermal energy, and wind. We are the nation's biggest ...

Jenbacher offers containerized generator sets based on our Type 2, 3, 4, and 6 gas engines. Leveraging the expertise acquired during several decades ...

Overview Connection to the rest of Europe Production and Consumption Transmission Distribution Competition There are plans to connect the Icelandic grid with the UK using a subsea High-Voltage DC (HVDC) interconnector, with a potential capacity of up to 1.2GW, called Icelink. It would be the world's longest submarine HVDC cable, if built. This would allow Iceland to export excess energy to UK and in turn linking it to a wider European super grid. The project is in planning stages and is controversi...
