Refer to the model number legend below: The following tables are specific to WJ200 inverters for the 200V and 400V class model groups. Note that "General Specifications" on page in this ...

The PXB series is designed for high-voltage, large-capacity inverters and other electrical components. It supports voltages up to 1500 V and power up to 200 kW * (power over 200 kW ...

Simply put, a power inverter delivers AC power when there's no outlet available or plugging into one is impractical. This could be in a car, truck, motorhome or boat, at a construction site, in ...

1) Minimum start-up voltage is 41 VDC. Over-voltage disconnect: 65,5 V. 3) Peak power capacity and duration depends on start temperature of heatsink. Mentioned times are with cold unit. 5) ...

A Mastervolt Mass Combi is the solution if you need more power than is available from the grid connection or the generator. These models can compensate for the lack of grid or generator ...
