Who will supply battery energy storage system (BESS) equipment?

Utility-scale renewable energy developer-operator Masdar said on Friday (17 January) that it has selected CATL to supply battery energy storage system (BESS) equipment alongside fellow Chinese companies Jinko Solar and JA Solar as solar PV module suppliers.

Will Dubai's new solar power plant be able to operate 24/7?

The facility will be capable of operating 24/7 on renewable energy. This will also be the world's first 24/7 solar PV, battery storage gigascale project, according to Abu Dhabi Future Energy Company (Masdar) and Emirates Water and Electricity Company (EWEC), which are part of the project.

How many GW of baseload power can a Bess project deliver?

The project will be capable of delivering up to 1 GW of baseload power 24 hours a day, setting a global benchmark for the development of clean energy. CATL, as preferred supplier for the BESS, will provide its latest TENER technology for the total capacity of 19 GWh.

What is CATL & Masdar doing in Abu Dhabi?

On January 17, CATL and Masdar, the UAE's leading clean energy company, announced a groundbreaking partnership to develop the world's first large-scale, 24/7 giga-scale project in Abu Dhabi. This innovative initiative will integrate solar power with battery storage to ensure continuous, round-the-clock energy supply.

With an investment exceeding \$6 billion, the project will feature 5.2 GW of solar capacity and 19 GWh of energy storage, making it the largest solar ...

On January 17, CATL and Masdar, the United Arab Emirates' clean energy powerhouse, announced a partnership for the world's first large-scale "round the clock" giga ...

The company will supply the Abu Dhabi project's full 19 GWh of BESS capacity, supplying its TENER BESS solution which was launched ...

The \$6 billion giga-project will be located across an area of land in the Abu Dhabi desert spanning 90 square kilometers. Construction is underway and the project is expected to ...
