Discover renewable energy innovation with our 45ft Solar Energy Container, a mobile powerhouse designed to bring sustainable power wherever it's needed. With its transportable convenience and environmental efficiency, it stands at the forefront of renewable energy solutions. Introduce power to any location with our Solar Energy Container.

What is a solar panels on shipping container?

It not only transports the PV equipment, but can also be deployed on site. It is based on a 10 - 40 foot shipping container. Efficient hydraulics help get the solar panels ready quickly. Due to its construction, our solar panels on shipping container offers unmatched flexibility and maneuverability.

Where should solar panels be installed?

Solar panels can be used to power even smaller amounts and come as wall mounts or flexible pads to aid portability. Solar panels for home use come as stationary units that are installed on roofs, posts or outer walls. Panels should be installed on south-facing surfaces to maximize exposure to the sun. Find mounting kits to aid installation.
