DTEK has energised the largest battery storage project in the war-torn country and one of the biggest ones in Eastern Europe. The 200 MW/400 MWh installation spans six sites ...

Construction Timeline: Site works have begun; commissioning is targeted for Q3 2025. Future Upgrades: Plans include battery storage ...

Our 1 GW project combines gas, solar, and battery storage to secure Kyiv's grid, cut emissions, and support critical services. Explore investment in this high-impact initiative.

Ukraine's largest private energy company DTEK secured a \$72-million loan to build one of the largest battery energy storage complexes in Eastern Europe, the company said on June 3.

The Kyiv City Council approved the installation of solar panels and energy storage systems in public government buildings and housing ...

DTEK Group, together with the U.S. company Fluence, a global leader in energy storage, commissioned 200 MW of capacity with a total storage volume of 400 MWh. The new ...

As reported, DTEK will build energy storage facilities in Ukraine with a total capacity of 200 MW, with investments in the project amounting to EUR 140 million. The batteries will be ...

Fluence and DTEK (through its subsidiary DTEK Renewables) plan to complete the project by October 2025, so that systems are in place before the 2025/26 winter season to ...

As Ukraine's capital accelerates its renewable energy adoption, Kyiv energy storage system power generation facilities have become critical for managing solar and wind power fluctuations.

In June, the state-owned company Ukrhydroenergo announced plans to build a massive 200 MW / 800 MWh energy storage system at the Kaniv hydroelectric power plant, ...
