Who visited the monsoon wind power project in Lao PDR?

Lao PDR's President H.E. Thongloun Sisoulith, Secretary General of the Central Party Committee, visited the Monsoon Wind Power project, where he was welcomed by Mr. Nat Hutanuwatr, CEO of the Monsoon project, and Mr. Peck Khamkanist, IES CEO.

How many wind turbines are there in Laos?

Stretching across the Dak Cheung district in Xekong province and the Sanxay district in Attapeu province, 133 wind turbines rise from the ridgelines, turning steadily in the region's strong, reliable winds. The project, the first wind farm in Laos, is the product of more than a decade of detailed wind studies.

How does Lao & Vietnam Electricity work?

From there, electricity travels along a 27-kilometre high-voltage transmission line to the Lao-Vietnam border, where it connects to Vietnam Electricity (EVN) through the 500 kV Thanh My substation. It operates under a 25-year Power Purchase Agreement with EVN and a 28-year Concession Agreement with the Government of Lao PDR.

This milestone is expected to alleviate energy constraints in Vietnam and support the country's decarbonization efforts, while also ...

Today, 600 MW of clean, utility-scale power flows from the mountains of southern Lao PDR into Vietnam, strengthening regional energy security, boosting economic growth, and ...

The project, the largest wind power initiative in Southeast Asia, includes cross-border transmission to Vietnam. Despite challenging terrain and weather, POWERCHINA ...

The Monsoon Wind Power Project in southern Laos, the largest in Southeast Asia, is now operational and is delivering clean energy across the border to Vietnam, marking a milestone ...

After completion, the project will be the first wind power project in Laos, the largest in Southeast Asia and the first cross-border new energy project in Asia, according to Monsoon ...

Vietnam Electricity issued commercial operation certificates on Aug 22 for Zones 3 and 4 of the 600 MW
