Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.

Transportable via standard shipping container, the system achieves full operational capability within 4-6 hours of arrival. Providing 24/7 clean energy with scalable solar capacity of 30 ...

Equipped with automatic fire detection and alarm systems, the 20FT Container 250kW 860kWh Battery Energy Storage System is the ultimate choice for secure, scalable, and efficient energy ...

Microgreen offers large-scale energy storage that is reliable in harsh environments, cost effective with top energy density, and provides best return on investment.

Governor Kathy Hochul today announced that the Port Authority of New York and New Jersey and the New York Power Authority began construction of New York State's largest ...

When built, the facility will be able to hold up to 100 megawatts (MW) and power over tens of thousands of households. Once ...

Microgreen offers large-scale energy storage that is reliable in harsh environments, cost effective with top energy density, and provides best ...

Customize your container according to various configurations, power outputs, and storage capacity according to your needs. Lower your environmental impact and achieve sustainability ...

Each Megapack is a container of similar size to an intermodal container. They are designed to be deployed by electric utilities. The energy stored ...

From small 20ft units powering factories and EV charging stations, to large 40ft containers stabilizing microgrids or utility loads, the right battery energy storage container size ...
