What is a collapsible bulk container?

Collapsible bulk containers, also known as knockdown containers or knockdown bins, are space saving containers perfectly engineered for both durability and longevity. These foldable containers are made of high-density polyethylene (HDPE), a durable material that will protect your product throughout the duration of the container's life.

What is a foldable container?

These foldable containers are made of high-density polyethylene (HDPE), a durable material that will protect your product throughout the duration of the container's life. These foldable containers offer key features that make using our plastic containers simple. Collapsible functionality brings significant savings on inbound freight.

What is compact containers?

Compact Containers serves the global shipping and intermodal industry with an efficient, low-cost means to transport containers by Road, Rail, or Sea. Discover the future of cargo logistics with Compact Containers. Our SeaFold 40' collapsible containers redefine efficiency & cost savings.

Are collapsible containers durable?

Yes, most collapsible containers are designed to be strong and durable to withstand the weight of the items stored inside. They are usually made from robust materials such as heavy-duty plastic or metal. However, the exact durability will depend on the specific product and manufacturer.
