The 62 MW solar power plant built in the Oslomej region of North Macedonia is supported by energy storage solutions with a capacity of 104 MWh. The project aims to ...

Following the implementation of the first renewable energy law in 2021, the nation has seen a remarkable surge in investor interest, with grid connection requests for solar and ...

Overall, hydro capacity is expected to remain around 0.7 GW through 2035, with only minor additions of small hydro. The flexibility of the existing hydro plants remains a crucial asset for ...

Indicators of renewable resource potential unit of capacity (kWh/kWp/yr). The bar chart shows the proportion of a country's land area in each of these classes and the global distribution of land ...

With 900 MW of installed capacity, North Macedonia's solar sector is scaling rapidly, while battery storage is gaining momentum. Find out more in our daily focus, 15-18 ...

Battery licensing begins as 60 MW milestone nears, and 4 GW of storage proposals await review. North Macedonia has issued its first two licenses for battery energy ...

The Oslomej solar park, built on a former lignite open pit mining site, is already partly operational and will have an installed capacity of 120 MW when fully completed.

In a recent interview, North Macedonia's Minister of Energy, Mining and Minerals Sanja Bozinovska said projects are under development for battery energy storage systems (BESS) ...

The continued growth of solar power and the development of storage capabilities will play a decisive role in securing North Macedonia's energy independence and promoting a ...

With 900 MW of installed capacity, North Macedonia's solar sector is scaling rapidly, while battery storage is gaining momentum. Find ...
