Affordable on- and off-grid renewable energy with LIXI Lithium battery storage for your Mauritian home and business. Partner for Deye, Growatt and MPP Solar inverters.

The 10 MW solar plant at Plaine des Roches connects to the CEB's Amaury substation via a 4.5 km, 22 kV line. The facility utilizes 20,328 bifacial panels across 12 hectares, projecting an ...

With a capacity of 35 MW, this power station plays a crucial role in meeting Mauritius' energy needs. We are committed to sustainability and are ...

Concentrated solar power plus internal thermal energy storage permits dispatchability, but it is convenient only in areas of large direct normal irradiance. A hybrid concentrated ...

The 10 MW solar plant at Plaine des Roches connects to the CEB's Amaury substation via a 4.5 km, 22 kV line. The facility utilizes 20,328 bifacial ...

Mauritius is advancing its renewable energy goals with a new tender for a hybrid solar project, combining rooftop and ground-mounted PV systems for a total capacity of 2 MW.

The solar systems will have a cumulative capacity of 2 MW and be deployed on the island of Rodrigues, east of the main island of Mauritius. The chosen developer will be ...

Ultimately, this hybrid solar and storage project is more than just an energy plant; it is a cornerstone for a cleaner, more resilient energy future for Mauritius.

In an exciting development for renewable energy in Africa, Qair, an Independent Power Producer (IPP), has successfully closed a loan to finance a significant 60MW hybrid ...

With a capacity of 35 MW, this power station plays a crucial role in meeting Mauritius' energy needs. We are committed to sustainability and are actively exploring biomass conversion to ...
