uModule ® power regulator technology simplifies implementation, verification, and manufacturing of complex power circuits by integrating the power function into one compact package.

Smart-UPS Modular Ultra provides ultra-high power density, On-Line power protection with Lithium-ion batteries in an modular, internally redundant-capable architecture.

Smart-UPS Modular Ultra provides ultra-high power density, On-Line power protection with Lithium-ion batteries in an modular, internally redundant ...

Our buffer module is a practical way of being well-equipped for difficult network situations, especially in rural areas. Our DURAEco series is a flexible and user-friendly battery solution in ...

No Standalone lithium batteries are sold with the product. Mini uninterrupted power supply for power outage, compatible with router, modem, security camera, telephone, fax, ...

The PicoPSU-100 ensures uninterrupted power for your electronics by automatically switching in between a DC input source (15-18V) and a Lead Acid (SLA battery).

It is able to charge the batteries and provide power output at the same time from external power supply. Automatically switch over to batteries output if external power supply is unavailable, ...

Choose the right DC energy storage solution with uninterruptible power supply battery backup options from lithium-ion UPS batteries to traditional VRLA batteries.

Advancements in packaging have dramatically shrunk the size of power regulators. With an ultrathin profile below 2 mm (1.18-1.92 mm), the micromodule regulators ...

Battery modules are the perfect addition to our modular system of uninterruptible power supplies for the reliable supply of your system. The battery modules offer various features such as long ...

Micromodule supply battery

uninterruptible power
