Cat#174; power generators for mining are trusted by large mining operations & small quarries to customize power systems for every mining phase. Learn more.

CPS Generators is your trusted partner for diesel generator solutions in the mining industry. Whether you're powering exploration sites, processing plants, or accommodation camps, our ...

Each power system is custom-built to meet specific mining conditions and complies with local safety and environmental regulations. Our responsive support continues long after ...

Uninterrupted power is valuable in remote and demanding mining sites. Count on us for proven power solutions you can run into the ground. Thompson Power Systems offers a wide range of ...

Foxtheon delivers advanced hybrid power stations and generator solutions for mining crushers and load leveling applications. Our systems reduce fuel consumption while ensuring stable ...

Flexible and expandable power system with open ring network architecture. This power system design is recommended for a lithium extraction site using brine pumped from salt lakes (also ...

Uninterrupted power is valuable in remote and demanding mining sites. Count on us for proven power solutions you can run into the ground. ...

Optimizing mine power by balancing CAPEX, OPEX and up time of electric power at every phase of a mine. With longer maintenance intervals, higher fuel efficiency and competitive repair ...

Discover energy solutions for mining with high-performance mobile gensets. Learn how mining energy solutions, including mining generators, enhance efficiency and reduce costs.

Our mining energy solutions include power plant generators, as well as aeroderivative and heavy-duty gas turbines, many of which feature the ...
