The national energy utility of Namibia, NamPower, has broken ground on the Southern African nation's largest solar PV project to date. The 100MW Sores|Gaib Power ...

Technological advancements are dramatically improving solar storage container performance while reducing costs. Next-generation thermal management systems maintain optimal ...

We supply generators, INVT UPS applications and general electricity backup solutions to all sectors of the economy in Namibia. We cater for various bulk water storage applications to all ...

HOPSOL excels in on- and off-grid solar installations, fuel-saving controllers, and solar-diesel hybrid systems, serving residential, ...

Key contracts have been signed for the first-ever grid-scale battery storage project in Namibia, signifying the African country's dedication to modernising its energy infrastructure, according to ...

The implementation of the Omburu BESS will reduce the critical loading on the backbone of the grid which in turn will increase the security of supply to the customer without the immediate ...

Namibia urgently needs to develop a base load power plant, as our current reliance on intermittent renewable energy sources, mainly solar, creates supply gaps outside of sunshine hours.

HOPSOL excels in on- and off-grid solar installations, fuel-saving controllers, and solar-diesel hybrid systems, serving residential, commercial, and utility-scale projects.

Namibia has commenced building its largest solar facility, Sores|Gaib, to reduce its reliance on energy imports by utilising its significant solar capability, which is regarded as one ...

The national energy utility of Namibia, NamPower, has broken ground on the Southern African nation's largest solar PV project to date. ...
