What are wind energy ordinances?

Ordinances regulate aspects of wind projects such as their location, permitting process, and construction and provide clarity to wind developers and the public. WINDEXchange compiled this database of wind energy ordinances from around the country. Wind Energy and Eagles: The Problem, the Permit, and the Path Forward: A WINDEXchange Webinar.

Can a state sit a wind energy project?

C. Local Siting. In states where projects do not trigger state siting jurisdiction, and in states with no state siting process, wind energy projects are permitted by the local jurisdiction. For typical rural wind energy projects, this is almost always a county (as opposed to a city governing body).

How do zoning laws affect wind and solar energy?

State and local zoning laws and ordinances influence how and where wind and solar energy projects can be sited and deployed--which can have a measurable impact on U.S. renewable energy resource potential.

Do wind energy projects receive preferential permitting treatment?

Although wind energy projects are commonly praised for producing green power, they rarely receive preferential permitting treatment. Wind energy projects raise local land use, environmental, and community concerns similar to those raised by other commercial and industrial projects.

In addition to its dozens of excerpted cases, statutes, and articles, the book contains a simplified wind energy lease and realistic samples of other materials that transactional lawyers are likely ...

This page describes the patchwork of federal, state, and local policies and regulations pertaining to renewable energy systems that impact project development.

In July 2025, a wave of new federal actions altered the review and approval process for wind and solar projects across the U.S., which have introduced likely delays, uncertainty, and risk.

This report presents a chronological review of energy laws and regulations concerning grid interconnection procedures in the United States, highlighting the consequences of policies for ...
