When will the Niue energy project be completed?

The project will be completed mid-2026 when the Government of Niue under the Department of Utilities and Niue Power Corporation (NPC) will take over the ownership. We anticipate savings of 816,000 litres of fuel and 2,202 tCO₂e in year one. It will support Niue to deliver on our climate goals and Nationally Determined Contributions (NDCs).

What does the Minister of infrastructure say about Niue's New Power Station?

The Minister of Infrastructure, Hon. Crossley Tatui extended his appreciation to the Australian and New Zealand Governments, saying, "The construction of this new power station is a vital piece of infrastructure for Niue's development and well-being. This achievement would not have been possible without the support of our regional partners."

When is Niue's New Power Station launching?

The Ministry of Infrastructure celebrated the soft launch of Niue's New Power Station on the 7th November 2024. The launch marks a critical milestone in Niue's journey to strengthen and modernize its energy infrastructure.

Over two days, participants reflected on achievements to date and laid the foundation for a new Energy Roadmap to 2035 that will advance Niue's climate commitments ...

This project aims to enable Niue to generate 80% of its electricity from renewable energy by December 2025. Just over a month ...

The Niue Renewable Energy project currently being constructed near the airport comprises a 2.79MWp photovoltaic solar array, 8.19MWh Battery ...

Niue's renewable energy ambitions continue to make strides despite setbacks, including a lightning strike in November 2023, which ...

Summary: Discover how Niue's solar photovoltaic support system is transforming energy independence for small island nations. Learn about innovative technologies, real-world case ...
