What is a 200W LED street light?

200w led street light is suitable for 20 meters lighting pole which normally located at the square of a heavy industrial zone to provide enough lighting for the whole workplace, road width can be more than 15 meters approximately.

Are solar street lights a viable alternative to conventional street lights?

Solar street lights have become a practical alternative to conventional street lights due to its natural solar energy and excellent suitability in remote areas. The fundamental drawback of solar energy is its unpredictable nature based on climate patterns, but this can be overcome with power storage batteries which act as a backup source of power.
