Beyond EVs, the burgeoning renewable energy sector significantly contributes, as lithium-ion batteries are crucial for grid-scale energy storage, enabling the integration of ...

and businesses have taken little part in this activity. As a country that produces raw materials equivalent to those used in batteries and with almost 100% renewable power production, ...

The agreement will see Hithium supply BOS with battery energy storage system (BESS) technology for projects in Denmark, Sweden, Finland and Norway through 2027.

October 21, 2025 - Elinor Batteries has been awarded the contract to supply battery solutions for three large-scale battery parks in Southern Norway, boosting energy storage capacity, ...

October 21, 2025 - Elinor Batteries has been awarded the contract to supply battery solutions for three large-scale battery parks in Southern Norway, boosting energy storage capacity, ...

Nordic Batteries announces it is entering into a strategic partnership with Morrow Batteries and Eldrift to develop complete battery packs for mobile and stationary battery energy storage ...

Opportunities exist in the growing demand for lithium, driven by the electric vehicle market and energy storage solutions, both of which are critical to Norway's green energy transition.

Whether for EVs or energy storage, Norway has always had ideal conditions for battery growth: renewable energy in the form of hydropower, strong government financial ...

The agreement will see Hithium supply BOS with battery energy storage system (BESS) technology for projects in Denmark, ...

On 5 September 2025, BOS Power signed a supply agreement with HiTHIUM, a leading global company in energy storage technology, for the delivery of 3 GWh of battery energy storage ...
