Corban Energy Group is proud to introduce our Modular Refinery Solutions -- an innovative line of scalable, mobile, and fully automated refineries engineered for efficiency, simplicity, and ...

MOBIPOWER hybrid clean power containers combine battery energy storage systems with off-grid solar containers for remote industrial sites in Canada & USA.

The study explores the feasibility of incorporating solar, wind, and biomass energy sources alongside the existing Natural Gas Combined Cycle (NGCC) power plant and grid ...

This paper proposes a solar-assisted method for a petrochemical refinery, considering hydrogen production deployed in Yanbu, Saudi Arabia, as a case study to greenize oil refineries.

A New Era of Energy Storage Salgenx is pioneering an innovative approach to grid-scale energy storage by transforming oil wells--active or abandoned--into high-capacity saltwater flow ...

Its containerized UOP Russell and Modular Light Oil process trains, covering distillation, hydrotreating, sulfur recovery and NGL separation, ship as factory-wired skids that ...

The power plant runs an alkaline electrolyzer to generate green hydrogen (derived from solar energy). Steam is also extracted from a high-pressure turbine to meet the demand ...

Corban Energy Group is proud to introduce our Modular Refinery Solutions -- an innovative line of scalable, mobile, and fully automated refineries ...

Learn how off-grid solar power solutions are transforming oil and gas operations, reducing costs, and improving environmental impact.

These case study locations were selected based on a national screening of average industrial electricity costs and considering common refinery locations, local renewable ...
