What is a containerized mobile substation?

Containerized mobile substations are sheltered and address applications in challenging environmental conditions including areas of high pollution, and humidity. Customers requiring shorter overall delivery times and minimal on-site work have been the main drivers for Hitachi Energy's development of pre-fabricated indoor substations.

What is Pallocan West GIS substation?

Intended to meet the growing power demand and help accelerate economic development in Batangas City, the Pallocan West 69-kilovolt (kV)-13.8kV GIS Substation is the first smart substation in the southern part of Meralco's franchise area.

Can a circuit breaker be controlled from a substation?

Our system supports remote control of the entire circuit breaker within low voltage cabinets and ring network cabinets, as well as the ability to access operational information from substations.

A new 500kV/230kV Main Substation will be built for the project along with a 230 kV/34.5kV Main Collector Substation, and two 230 ...

Philippines gets first IEC 61850 substation Hitachi Energy and Meralco team up to deliver the country's first digital substation, paving the way for a smarter and more reliable grid.

View our prefabricated container substation product, which allows for mobility and rapid deployment. Join META Power Solutions online to learn more or contact us today to request a ...

Meralco Industrial Engineering Services Corporation (MIESCOR) has officially signed a contract with Terra Solar Philippines, ...

Smaller distribution substations are subdivided into container-sized modules, which can be manufactured, assembled and tested at the factory, allowing easy transport and fast ...

Meralco Industrial Engineering Services Corporation (MIESCOR) has officially signed a contract with Terra Solar Philippines, Inc. (TSPI) to design and construct vital ...
