What is the best pure sine wave inverter?

The Go Power! 3000 watt Industrial Pure Sine Wave Inverter is the ultimate choice for large loads, capable of powering multiple appliances and electronics. GP-ISW3000 Our largest pure sine wave inverter, the Go Power! GP-ISW3000 is the ultimate choice for large loads that demand an exact replica of AC power.

How much power does a sine wave inverter provide?

This inverter provides a half-second surge to 6000 watts - longer than other inverters in its class. With this pure sine wave inverter, 3000-watt power will be available for quiet, productive use. This product includes a thermally controlled fan, allowing for increased efficiency and less noise.

What is a pure sine inverter used for?

This inverter is ideal for running nonlinear loads such as variable speed motors and small compressors. Pure sine power is also preferred for laser jet printers, sensitive electronics and computer servers as well as microwaves, medical equipment, anything with a circuit board and cordless drill battery chargers.

This heavy-duty power inverter provides a modified sine wave for use at remote locations, such as campgrounds, construction sites and mobile offices. Two NEMA 5-15/20R outlets, as well as ...
