---

By combining our two core areas of expertise, energy and waste management, we are producing local, renewable, and circular energy for Greater Porto, strengthening the ...

Two hybrid projects with more than 630 MWh of battery storage planned in Portugal Lightsource bp is planning an 867 MWp solar and 300 MWh battery energy storage ...

Portugal's energy-storage market is entering a new stage of maturity, combining grid-scale standalone batteries and hybrid (co-located) systems with renewable plants.

Project execution will be led by Omexom Portugal--responsible for design, supply and Balance of Plant (BoP) construction--and Saft, which will manufacture and supply the ...

The study analyzes how renewable energy penetration impacts storage requirements, determining the nominal hours of storage needed to maintain grid reliability, establishing ...

Eco Wave Power has successfully paid the first installment - representing 50% of the grid connection fee - for the planned 1MW station, marking significant progress in the project's ...

VG CoLAB was established in 2019 in Porto as a non-profit private association, and the associates include public and private partners from academia and industry. VG CoLAB ...

Portugal is firmly committed to achieving carbon neutrality by 2050. A cornerstone of this strategy is the integration of Battery Energy Storage Systems (BESS) to support its ...

The renewable energy landscape in Portugal is moving into a new phase, marked by stronger commitments from international investors ...

In this way, this study proposes to fill in this gap by using an energy system modeling tool to simulate the dynamics of pump hydro storage under different hydrological ...
