When will Italy's new energy storage capacity procurement auctions take place?

Terna's thinking ...The date is set. The first of Italy's new energy storage capacity procurement auctions (MACSE) will take place on September 30, 2025, Terna's president for grid development strategies, Francesco Del Pizzo, has confirmed.

How will MACSE change energy storage requirements in Italy?

There are stark differences in energy storage requirements across Italy and MACSE procurement targets will adapt to these zonal needs. Most of the new utility-scale storage capacity catalyzed by MACSE will be needed in Southern Italy and the islands, with 16.8 GWh in the South, 13.6 GWh in Sicily, and 10.4 GWh in Sardinia.

What does a 15-year contract mean for energy storage?

The mechanism, offering 15-year contracts on up to 100% of asset capacity, aims to support the installation of energy storage necessary to achieve the country's renewable energy target of 131 GW by 2030.

Which countries need new energy storage capacity?

Most of the need for new utility-scale storage capacity is concentrated in Southern Italy and the islands, with 16.8 GWh required in the South, 13.6 GWh in Sicily and 10.4 GWh in Sardinia. Aurora's detailed analysis highlights the MACSE mechanism's ability to attract significant investments in energy storage, balancing risks and returns.

The first of Italy's new energy storage capacity procurement auctions (MACSE) will take place on September 30, 2025, Terna's ...

The beneficiaries will be selected through a competitive, transparent, and non-discriminatory bidding process, where electricity storage developers will compete based on offers relating to ...

Italian electricity TSO Terna has received more than 100 GW of requests to participate in the energy storage auction it is planning before summer 2025. The first phase of the MACSE ...

Governor Hochul announced awards for 22 large-scale solar and energy storage projects that will deliver enough clean, affordable energy to power over 620,000 New York homes for at least ...

This mechanism, implemented by Terna, the Italian Transmission System Operator (TSO), aims to support

energy storage projects by offering indexed contracts for up to 15 ...

This article explores the project's scope, bidding requirements, and market trends, while highlighting actionable strategies for stakeholders aiming to secure contracts in Italy's fast ...

Energy market analytics specialist Aurora Energy Research has published a new report focusing on the auction system of the Electricity Storage Capacity Procurement ...

The mechanism, offering 15-year contracts on up to 100% of asset capacity, aims to support the installation of energy storage necessary to achieve the country's renewable ...

The first of Italy's new energy storage capacity procurement auctions (MACSE) will take place on September 30, 2025, Terna's president for grid development strategies, ...

You've probably heard about Italy's latest energy storage auction results--but do you know what they really mean for Europe's green transition? In March 2025, Italy awarded 1.2 GW of grid ...
