Which countries produce a classroom converted from a shipping container?

South Africa, Nigeria, Malawi, Zimbabwe, Angola, Ethiopia, Mozambique, Democratic Republic of Congo, Botswana, Namibia, Rwanda, Madagascar, Sierra Leone, Somali, Kenya, Chad, Tanzania & Chad. We produce the classroom converted from a Shipping Container.

Why do schools need shipping container classrooms?

When these situations arise, educational administrators are forced to reconfigure the space they do have and come up with creative ways to meet the needs of their pupils. Shipping container classrooms are an innovative, cost-effective and convenient way for educational facilities to add square footage when they need it most.

How much does it cost to build a shipping container classroom?

Typically, shipping container builds will cost approximately half of what traditional construction would cost per square foot. Example: If a 2,000 sqft traditional classroom would cost \$300,000.00 to build, it would cost approximately \$150,000.00 to build a shipping container classroom of the same size.

Why do educational institutions choose storage container construction?

This is undeniably one of the most influential reasons why educational institutions opt for storage container construction. Typically, shipping container builds will cost approximately half of what traditional construction would cost per square foot. Example:
