What is Seychelles' energy policy?

Energy policy calls for 15% renewables by 2030. In June 2013, the first wind farm in Seychelles was officially inaugurated. This 6 MW power plant can produce up to 2% of the Seychelles' power and is located on Mahé Island. It is expected that the wind farm will replace 1.6 million litres of diesel fuel annually.

What does the Seychelles government do?

The Seychelles Government is committed to providing adequate, reliable and affordable energy to meet future energy consumption needs and to underpin strong economic growth through consumable energy initiatives. The Seychelles enjoy favourable conditions for renewable energy (RE) resources, such as wind and solar.

What does the Seychelles Energy Act cover?

The Seychelles Energy Act caters to the establishment and management of the Seychelles Energy Commission (SEC) and the Seychelles Energy Board. It also makes provisions for electricity-related activities, renewable energy sources, energy efficiency, clean development mechanism, tariffs, and charges, consumer protection rights, and the issuance of licenses and permits.

How is electricity produced in Seychelles?

Electricity for the island nation of Seychelles is primarily produced by diesel generators which must import their fuel (69 MW on Mahe and 12 MW on Praslin). Energy policy calls for 15% renewables by 2030. In June 2013, the first wind farm in Seychelles was officially inaugurated.

The Seychelles has long faced challenges in its journey towards renewable energy, primarily due to limited land availability, ...

Explore the comprehensive environmental regulations in Seychelles aimed at protecting its unique biodiversity and promoting ...

Due to the high costs associated with oil imports and growing environmental concerns, the Seychellois government is actively seeking alternative energy resources, particularly solar and ...

The Seychelles has long faced challenges in its journey towards renewable energy, primarily due to limited land availability, suboptimal wind resources, and its reliance on ...
