But hold onto your solar panels: this Central European nation is rolling out one of the most ambitious energy storage project portfolios for 2025, aiming to become a regional ...

With a grant of more than EUR 2.1 million, the project is carrying out studies to prepare the way for the modernisation and hybridisation of the Cierny Váh pumped hydro ...

Echogen Power Systems and Westinghouse Electric Company have signed a Memorandum of Understanding with state-owned hydropower operator Vodohospodárská ...

The Slovakian project will be the first of its kind in Europe, delivering gigawatt-hour-scale energy storage capacity to capture surplus electricity from VVB's hydropower stations and...

One large system is now installed, others are in the pipeline. As battery storage becomes increasingly important in the quest to fully ...

But did you know Slovakia's capital is now charging ahead (pun intended) with Europe's most ambitious large-scale energy storage project? Let's unpack this energy marvel that's making ...

The project counts on reconstruction of two turbines and adding a battery storage with a power output up to 80 MW and 160 MW h capacity. This innovative solution has only ...

The European Commission has earmarked EUR2.1 million under the Connecting Europe Facility (CEF) for Energy to assess adding a battery energy storage system (up to 80 ...

The planned facility in Slovakia will be the first of its kind in Europe, providing gigawatt-hour-scale energy storage capacity. It will store surplus electricity generated by ...

One large system is now installed, others are in the pipeline. As battery storage becomes increasingly important in the quest to fully utilise renewable energy sources, a raft of ...
